

Advanced Placement Government
Summer Assignment
Mr. Manriquez
Monsignor Edward Pace High School
Email: omanriquez@pacehs.com

AP Government students,

This advanced placement course is designed to be a college level course and permit you to earn college credit as well as pass the AP Exam in May. The primary objective of the course is to focus on the philosophy, history, politics, and structure of the U.S. Government. More than just memorization of the facts and material is required. I will be challenging to use critical thinking skills and analysis. This class involves higher order thinking stemming from knowing the basic information.

Below I have the 3 summer assignments listed and explained. The summer reading test (assignment #1) for the book will be the first day of class. Assignment #2 will also be due the first day of class. A Constitution Test will be given the 2nd class (assignment #3). The purpose of these assignments is to prepare you for us to start immediately on task and make you familiar with concepts of American Government, since we need as much time and background knowledge possible. **Do not procrastinate**, it will be a detrimental habit for you to have in this class. Many of you have limited knowledge of the American Government thus the summer assignment helps you with background information for the class. It will also prepare you for the rigorous pace of the class during the school year and to condition you to analyze and think critically.

At times you may need to do further research and exploration to finish the assignments. Any questions or concerns please e-mail me.

Intellectual Honesty:

The purpose of an education is to improve the development of thinking and expression. All students must be honest in their academic studies. To falsify the results of one's research, to steal the words or ideas of another, to cheat on an assignment, or to allow or assist another to commit these acts corrupts the educational process. Any copying, cheating, or plagiarism is to be avoided at all costs. Plagiarizing, copying, and cheating consist of presenting others work as your own. Students are expected to do their own work and neither give or receive unauthorized assistance. Any students involved in these actions will receive a zero, be reported to school administration, and punished according to the guidelines in the student handbook. Plagiarizing, cheating, and copying are dishonest and considered unintelligent.

Remember:

As you read, you should make a timeline of the books and notes on major concepts. Also keep a list of main characters as well as vocabulary. These become a great reference to study for the tests.

The following comes from Mr Geromin's website:
